

med&

Talent is everywhere.
The right encounter changes
everything.

Med&X connects Croatian medicine and science with the world's leading institutions, in both directions.

— OUR MISSION

A team of young
physicians
and scientists,
united by one goal —
to make an *impact*.

— THE PEOPLE BEHIND MED&X

Led by physicians, built by *volunteers*.

Alen Juginović, MD
PRESIDENT & CO-FOUNDER
HARVARD MEDICAL SCHOOL

Miro Vuković, MD
VICE PRESIDENT

The organizing team, Plexus 2025

— WHO WE ARE

A Croatian biomedical non-profit, *bilateral* by design.

The exchange runs both ways. Global leaders gain a foothold in a fast-rising biomedical community. Croatian scientists and clinicians gain partners, platforms, and the doors that turn a promising career into a lasting one.

May GATHERING

Building Bridges

Our travelling forum, connecting Croatians abroad with each host city.

5 CITIES **150+** LEADERS

Boston NEXT

Where rising talent meets the people who *lead* medicine.

Two days of keynotes, panels, and candid conversations in Zagreb each December. Free to attend and deliberately intimate, built so a student can ask a real question and a leader has time to answer it. Across our editions, Plexus has brought Nobel laureates, hospital presidents, and university chancellors to the same room as Croatia's next generation.

DEC 4-5, 2026 · ZAGREB

01 — THE GALA EVENING

One evening. The people who lead the *world's* medicine.

Black tie at the Esplanade Zagreb. An awards ceremony, a five-course dinner, keynote addresses, and live music by Tatiana 'Tajči' Cameron and Ante Gelo. Proceeds fund Accelerator internships.

Internships *inside* the world's best labs and clinics.

Not exchanges with institutions — internships inside specific labs and clinics at Harvard, Mass General, Mayo Clinic, Cleveland Clinic, Yale, Columbia, King's College London, and Osaka. Fellows learn as much as they can, return to Croatia with frontier skills and lasting mentors, grow into the leaders of Croatian medicine, and keep building the bridge between Croatia and those institutions.

02 — WHY THE ACCELERATOR MATTERS

Every internship is a *door* that stays open.

Gala proceeds and partner support fund Accelerator internships, keep Plexus free for students, and carry the bridges across the year. One internship can shape a career. A community of them can shape a country's medicine.

PROJECTS, ONE MISSION

03 — BIOMEDICAL FORUM

A working network of *senior* leaders.

Physicians, scientists, and healthcare leaders who steer Croatian biomedicine from home and abroad. Members mentor Accelerator fellows, open doors for internships, and meet at an annual gathering in Zagreb each May.

04 — BUILDING BRIDGES

Our travelling forum, city by *city*.

We connect Croatian and international physicians and scientists — so the next collaboration starts here.

Washington, London, Zurich, New York, and next, Harvard Medical School in Boston. Every edition seeds internships, joint papers, and partnerships between Croatia and the host city.

NEXT · SEPTEMBER 2026

— THE MAP SO FAR

From Zagreb, *outward.*

Every line is people: internships, joint papers, mentorships, returns.

JOIN US

Stand beside the *room*.

Partner

Put your name beside a project — Plexus, the Gala, Bridges, or the Forum.

Fund an internship

€800–1,000 co-finances one fellow inside a world-leading lab or clinic.

Donate

Every euro is confirmed in writing and publicly reported.

Or simply take a seat at the table in December. The bridge is built one encounter at a time.

Croatian biomedicine, connected to the world.
