

med&

Talent is everywhere.
The right encounter changes
everything.

Med&X connects Croatian medicine and science with the world's leading institutions, in both directions.

— WHERE IT BEGAN

Med&X began with a doctor from *Split*.

He trained in Croatia, found his way into a lab at Harvard, and kept meeting brilliant people back home who never got that door. Med&X exists to build those doors, so the next encounter is a matter of design, not luck.

Plexus Conference, Zagreb

— WHO WE ARE

A Croatian biomedical non-profit, *bilateral* by design.

The exchange runs both ways. Global leaders gain a foothold in a fast-rising biomedical community. Croatian scientists and clinicians gain partners, platforms, and the doors that turn a promising career into a lasting one.

Building Bridges, New York

WHAT WE BUILD

Four projects, *one* mission.

Plexus Conference & Gala

Two December days in Zagreb where rising talent meets the people who lead world medicine.

Med&X Accelerator

Placements for Croatian talent inside the world's best labs and clinics.

Biomedical Forum

A working network of the senior leaders steering Croatian biomedicine.

Building Bridges

Our travelling forum, connecting Croatians abroad with each host city.

— 01 — PLEXUS CONFERENCE

Where rising talent meets the people who *lead* medicine.

Two days of keynotes, panels, and candid conversations in Zagreb each December. Free to attend and deliberately intimate, built so a student can ask a real question and a leader has time to answer it. Across our editions, Plexus has brought Nobel laureates, hospital presidents, and university chancellors to the same room as Croatia's next generation.

02 — MED&X ACCELERATOR

We place Croatian talent *inside* the world's best labs.

Not exchanges with institutions, placements inside specific labs and clinics at Harvard, Mass General, Mayo Clinic, Cleveland Clinic, Yale, Columbia, King's College London, and Osaka. Participants return with frontier skills and lasting mentors. Host teams gain dedicated researchers and a durable link to Croatia.

APPLICATIONS OPEN

— 03 — BIOMEDICAL FORUM

A working network of *senior* leaders.

Physicians, scientists, and healthcare leaders who steer Croatian biomedicine from home and abroad. Members mentor Accelerator fellows, open doors for placements, and meet at an annual gathering in Zagreb each May.

— WHY IT MATTERS

Every fellowship is a *door* that stays open.

Gala proceeds and partner support fund Accelerator fellowships, keep Plexus free for students, and carry the bridges across the year. One placement can shape a career. A community of them can shape a country's medicine.
